TO COUNTY ASSESSORS:

1980-81 BUDGETS AND WORKLOAD REPORT

Here is our Budgets and Workload Report for 1980-81. It contains data useful for comparing your operations under Article XIII A with those of other assessors.

This report contains the following tables:

<u>Table</u>	<u>Title</u>
A	Budget Data and Costs of Selected Programs
B	Local Roll Values and Related Workload Indicators
C	Distribution of Local Roll by Selected Property Types
D	Budgeted Full-Time Positions in Person-Years
E	Budgeted Part-Time Positions in Person-Days
F	Selected Staffing Changes

All of the data in these tables was solicited from you in Letter to Assessors' 81/09 except for total roll values (Table B, Column 1). These amounts were taken from the 1979-80 Annual Report of this Board, Table 7, and represent the values enrolled on 1980-81 local assessment rolls.

Some amounts are noted with an (E) which means estimated. A dash instead of an entry means an amount was not applicable or unavailable. All but two counties provided input for this report; missing amounts from these two counties are noted "no data available."

Column 11, Table B--Number of New Construction Changes Without Permits--represents data not collected in previous issues of this report. Although only one county noted a significant number of such transactions, twenty counties indicated the existence of new construction without permits. This fact may be indicative of "holes" in the permit issuing and processing systems. You may want to contact these assessors who reported such transactions to determine their nature and materiality. Similar transactions may exist in your county.

We hope this report will be useful to you and is a meaningful tool to compare your operations with those of the assessors. If you have any questions, please call Don Brower at (916) 445-4982.

Sincerely,

Verne Walton, Chief
Assessment Standards Division
